

# ROUNDUP OF REQUIREMENTS AFFECTING COUNTY IT PLANS

---

Stewart Bruner

Technical Advisory Council

December 4, 2015

# Applicable Rules and Regs

## Arizona State Constitution Article 6

---

- Section 1: Judicial power shall be vested in an integrated judicial department
- Section 3: The supreme court shall have administrative supervision over all courts of the state

# Applicable Rules and Regs

## ACJA 1-201: Administrative Code

---

- The Code of Judicial Administration is adopted to implement the supreme court's Article 6, Section 3 administrative supervision of all the courts in the state

## Applicable Rules and Regs

# ACJA 1-501: Court Automation Standards

---

- Courts shall use state sponsored and authorized automation systems except as provided in exceptions
- Courts on existing systems other than state standards...shall migrate to state-standard systems when they replace their current systems unless excepted
- Courts shall participate in mandated statewide automation initiatives with no expectation for state funding
  - Statistical reporting, EDMS, justice integration
  - eFiling, public access to data
  - Central data and document repositories

## Applicable Rules and Regs

### ACJA 1-501: Court Automation Standards

---

- Each IT Strategic Plan shall include a description of all automation and technology projects
- Each IT Strategic Plan shall include a description of plans for required migration to state sponsored and authorized systems

# Applicable Rules and Regs

## 1-505: Enterprise Architecture Standards

---

- The cross-jurisdictional nature of criminal justice activities supports adopting common architectures... by setting enterprise-wide, leveragable standards for information technology
- All courts shall comply with the standards except as provided in the exception process
- Courts shall migrate to systems in compliance with the standards when they replace their current systems, unless exception is granted
- IT strategic plan shall include a reference to standards incorporated in automation and technology projects as well as any deviations from them

# Applicable Rules and Regs

## 1-109: Commission on Technology

---

- COT shall
  - Encourage projects which use technology to increase accessibility to the courts, improve court efficiency, and improve court management
  - Review and approve or disapprove court technology projects that exceed a cost of \$250,000
  - Review and approve...Countywide IT Strategic Plans for consistency with the judiciary's strategic business and information technology plans and with applicable administrative orders and rules adopted by the court
  - Monitor the progress of all court automation projects pursuant to countywide IT plans

# Yuma Issue: What about Late Submittals?

---

- Do nothing, keep getting later plans with no analysis
- Do not consider project-related grants without plan that includes them being approved
- Do not consider any grants without an approved current plan on file
- Some other painful thing I haven't thought of!
